

Roman Lubkov

Curriculum Vitae

Positions

- Sep. 2025 — present **Associate Professor**, *Mathematics and Computer Science Department, St. Petersburg University, St. Petersburg, Russia*
- Sep. 2025 — present **Prime instructor**, *St. Petersburg Center for Artificial Intelligence and Information Technologies, St. Petersburg, Russia*
- Sep. 2023 — Dec. 2025 **Postdoctoral researcher**, *Leonhard Euler International Mathematical Institute, St. Petersburg, Russia*
- Sep. 2022 — Sep. 2023 **Junior researcher**, *Chebyshev Laboratory at St. Petersburg University, St. Petersburg, Russia*
- Sep. 2019 — June 2022 **Research assistant**, *St. Petersburg Department of Steklov Mathematical Institute of The Russian Academy of Sciences, St. Petersburg, Russia*
- Mar. 2017 — Dec. 2020 **Research assistant**, *Mathematics and Mechanics Department, St. Petersburg University, St. Petersburg, Russia*

Summary of qualifications

- Author of 10+ publications in peer-reviewed mathematical journals, see full list on p. 5;
- Experienced Primary Instructor in advanced mathematics, having taught core undergraduate algebra and specialized PhD seminars for 6+ semesters.
- Awarded multiple research grants as principal investigator and co-investigator, funded by the Russian Science Foundation (RSF) and other agencies;
- Proficient in scientific computing and DevOps, with expertise in Linux server management, containerization, and automated research workflows.

Education

- 2017–2021 **Ph.D. in Mathematics and Physics**, *St. Petersburg Department of Steklov Mathematical Institute of The Russian Academy of Sciences*
Advisors: Nikolai Vavilov & Victor Petrov Thesis: “Overgroups of The Elementary Subgroups of Reductive Groups in Irreducible Representations”
- 2015–2017 **M.Sc. in Mathematics**, *St. Petersburg University, Diploma Summa Cum Laude*
Advisor: Nikolai Vavilov Thesis: “Overgroups of Exterior Powers of an Elementary Group”
- 2011–2015 **B.Sc. in Mathematics**, *St. Petersburg University, Diploma Summa Cum Laude*
Advisor: Nikolai Vavilov Thesis: “Overgroups of Exterior Square of an Elementary Group”

Research interests

- Algebraic groups: structure theory over rings (Chevalley groups, Steinberg groups, and their relatives; representation theory of such groups)
- Invariant theory: geometry and structure problems defining algebraic groups via invariants; algebro-geometric [Grothendieck] aspects
- Non-associative algebras: algebraic and geometric classifications of Jordan, Novikov, and alternative-like algebras (and superalgebras); Transposed Poisson structures, derivations, deformations, and degenerations.

Funding and research groups

RSF: [Russia] Russian Scientific Foundation
RFBR: [Russia] Russian Foundation for Basic Research

- 2025–2027 **Co-coordinator**, *New trends in non-associative algebras*, RSF No 25-21-00545, 19.500 US\$, head: Gleb Nenashev, [Link](#)
- 2025 **Participant**, *Analysis, geometry, mathematical physics and their applications*, RSF No 19-71-30002 (extension), head: Anton Baranov, [Link](#)
- 2023–2025 **Leader**, *Groups and non-associative algebras*, RSF No 22-71-10001, 133.000 US\$
Collective research grant (participants: I. Kaygorodov, A. Generalov, A. Petukhov, I. Karimjanov, V. Lopatkin, K. Vyatkina, M. Venchakov), [Link](#)
- 2023–2024 **Participant**, *Non-associative algebraic structures*, RSF No 22-11-00081, head: Ilya Gorshkov, [Link](#)
- 2019–2022 **Co-coordinator**, *Decomposition of unipotents in polyvector representations and applications*, RFBR, individual grant for doctoral students No 19-31-90072, 17.000 US\$, head: Victor Petrov, [Link \(in Russian\)](#)
- 2017–2019 **Participant**, *Split reductive groups over rings and their relatives*, RSF No 17-11-01261, head: Alexei Stepanov, [Link](#)

Awards and scholarships

- 2025 **Researcher Award Competition in Mathematics, Theoretical Computer Science, and Theoretical Physics**, winner, [Link \(in Russian\)](#)
- 2023 **The “School” competition of Theoretical Physics and Mathematics Advancement Foundation “BASIS”**, junior postdoctoral award, [Link \(in Russian\)](#)
- 2022 **Scholarship of the program “Home towns”**, Gazprom Neft PJCS, junior postdoctoral award, [Link \(in Russian\)](#)
- 2018 **Rokhlin Stipends for Young Mathematicians**, graduate student award, [Link \(in Russian\)](#)
- 2013 **Scholarship of Chebyshev Laboratory at St. Petersburg University**, undergraduate student award
- 1999–2011 Multiple winner and prize winner in chess

Short-term visits (≤ 30 days)

- 2024–2026 **Peking University via Sino–Russian Mathematics Center, Beijing, China**
Short-term research stays:
○ June 08 – July 05, 2026
○ July 29 – August 27, 2025
○ September 01 – 22, 2024
- Aug. 2015 **Scuola Matematica Interuniversitaria (Mathematics Summer School), Perugia, Italy**
Jürgen Appell & *Analisi Funzionale*
Completed courses: Martin Văth
Nikolai Vavilov *Algebra*
- Apr. 2015 **Bielefeld University via Leonhard Euler DAAD program, Bielefeld, Germany**
Research advisor: Anthony Bak

Seminar talks

- Jul. 17, 2026 **East China Normal University, Shanghai, China**
Title: “Classification and isomorphism spectra of low-dimensional non-associative algebras”
- Jul. 13, 2026 **South China Normal University, Guangzhou, China**
Title: “Deformations and degenerations in certain non-associative varieties”

- Jun. 17, 2026 **Chern Institute of Mathematics, Nankai University, Tianjin, China**
Title: "Algebraic and geometric classifications of non-associative structures"
- May 08, 2017 **St. Petersburg Algebraic D. K. Faddeev Seminar, St. Petersburg Department of Steklov Mathematical Institute**, Title: "Overgroups of exterior powers of an elementary group"

Conference talks & mini-courses

- Apr. 28 — **CIMPA school "Modern trends in non-associative algebras", Tashkent, Uzbekistan**
May 9, 2025 Co-author of talk "The algebraic and geometric classification of Jordan superalgebras"
- Aug. 5–10 **Mathematics summer school "Algebraic Transformation Groups III", Pyalovo, Moscow**
2024 Mini-course: "Why do we need geometry of schemes?"
- Aug. 19–24 **Lie algebras, algebraic groups, and invariant theory, Samara University, Samara, Russia**
2024 Title: "Clear about the benefits of schemes for algebraic groups"
- Jan. 28 — **Lie algebras, algebraic groups, and invariant theory, National Research University Higher**
Feb. 02, 2023 **School of Economics and Steklov Mathematical Institute, Moscow, Russia**
Title: "Invariants of polyvector representations of $GL_n(\mathbb{R})$ "
- Nov. 01–05 **Random Point Processes, Suzdal, Russia**
2022 Poster: "Plücker polynomials and their applications"
- Jan. 27 — **Lie algebras, algebraic groups, and invariant theory, Moscow State University and Steklov**
Feb. 01, 2020 **Mathematical Institute, Moscow, Russia**
Title: "Variation of the inverse decomposition of unipotents for exterior square"
- Jul. 21–25 **Modern Algebraic Geometry, Silkroad Mathematics Center, Beijing, China**
2018 Poster: "Overgroups of exterior powers of elementary groups"
- Jan. 31 — **Lie algebras, algebraic groups, and invariant theory, Moscow State University and Independent**
Feb. 05, 2017 **University of Moscow, Moscow, Russia**
Title: "Overgroups of exterior squares of an elementary group"

Teaching experience

- MM SPbU: [Russia] Mathematics and Mechanics Department, St. Petersburg University
MCS SPbU: [Russia] Mathematics and Computer Science Department, St. Petersburg University
- since Sep. 2023 **Abstract algebra, undergraduate course, primary instructor, MCS SPbU**, 6 full semesters
- 2024 Fall **Algebraic groups over rings, MCS SPbU**, organizer of a seminar for PhD students, [Link \(in Russian\)](#)
- 2024–2025 **Lie algebras, MCS SPbU**, organizer of a seminar for undergraduate students, [Link \(in Russian\)](#)
- 2014 and 2016, **Abstract algebra, undergraduate course, primary instructor, MM SPbU**
Fall

Student supervision

Undergraduate students:

- Jun. 2026 **Ilya Shiringovskiy, Thesis: "Transposed Poisson algebras"**, Mathematics and Computer Science Department, St. Petersburg University, Russia
- Jun. 2026 **Roman Barhatkin, Thesis: "Overgroups of the symmetric square of elementary groups"**, Mathematics and Computer Science Department, St. Petersburg University, Russia

Academic service & contributions

- MM SPbU: [Russia] Mathematics and Mechanics Department, St. Petersburg University
MCS SPbU: [Russia] Mathematics and Computer Science Department, St. Petersburg University
- Sep. 17–19 **Organizing committee member, Vavilov Memorial 2026, Euler International Mathematical**
2026 **Institute, St. Petersburg, Russia**

- since 2025 **Faculty IT Contributor, MCS SPbU**
 Server administration and infrastructure maintenance for departmental needs; development and management of the official faculty website using a CMS and HTML/CSS.
- 2025 Fall **Supervising Instructor for a graduate teaching assistant, MCS SPbU**
- 2015–2017 **Headman of group (25–35 master students), MM SPbU**
- 2014 **Coordinator of group (15–25 students), MM SPbU**
- 2011–2015 **Headman of group (50+ bachelor students), MM SPbU**

Other scientific activities and professional development

- since 2026 **Journal referee** for “Revista de la Real Academia de Ciencias Exactas, Físicas y Naturales. Serie A. Matemáticas”.
- since 2026 **Journal referee** for “St. Petersburg Mathematical Journal”.
- since 2025 **Journal referee** for “Communications in Mathematics”.
- since 2024 **Referee** for Theoretical Physics and Mathematics Advancement Foundation “BASIS”, Russia
- since 2023 **Referee** for Student Research Paper Competition, National Research University Higher School of Economics, Moscow

Technical proficiencies

Infrastructure & DevOps Engineering

Expertise in end-to-end management of Linux servers and self-hosted infrastructure. Experienced in deploying containerized tools (Docker) and automating research workflows.

Scientific Computing & Computer Algebra Systems

Advanced user of Wolfram Mathematica and Maple for symbolic and numerical computations in research

Infrastructure Security & Operations

Practical experience in implementing secure service configurations, VPN tunnels, and maintaining high-availability systems. Working knowledge of core network protocols and security practices for self-hosted environments.

Programming & Typesetting

Familiar with C++ fundamentals. Proficient in $\text{\LaTeX}$ and Typst for professional document preparation.

Additional Competencies

- **Databases:** Operational knowledge of containerized DBMS (MariaDB, MongoDB, Redis).
- **System Administration Skills:** Proficient in managing multi-user Linux environments and configuring complex user workstations.
- **Emerging Tech:** Practical experience with local LLM deployment (Ollama, OpenWebUI).
